Embargoed

No embargoed Hot Topics found.

Recently Decided

No decided Hot Topics found.

Hot Topics are most interesting for a limited time. Therefore, the Society is interested in deciding on the suitability of proposed Hot Topics in a timely manner. The table above lists those proposed Hot Topics whose publishing status is presently undecided.

The three reasons for not having a publishing decision yet are:

- The 72 hour voting time interval has not elapsed yet.

Initially: Editor works on draft hot topic. May do multiple editing iterations before submitting.

Member Dashboard: Visible only to the author under "My Articles"

Interface: Don't check "Submit for Voting and Publishing"
Code: status is set to NODE_NOT_PUBLISHED. forvoting flag not set. Group access set to private. nodegrant_access set to identify the content in indexes.

Submit to editorial board.
Editorial board can see the article.

Interface: check box "Submit for Voting and Publishing"
User Dashboard: Waiting for Approval
Code: submitted flag set on the hot topic.

#1 Send Email. Uncheck for small changes. Check to notify the editorial board of an update.

#2 Submit for Voting and Publishing. Otherwise hidden from the Editorial Board.
